

## MINUTES OF MANAGEMENT MEETING HELD ON JULY 6, 2026

### Attendance

Mr. Henry Ezike

Mr. Desmond Ikwuezuma

Ms. Princess Obaseki

Mrs. Gloria Morka

Mr. Kenneth Onyemachi

Mr. Emmanuel Udoh

Ms. Vivian Iyaha

Mr. Anthony Aigbokhai

Mr. Michael Obadan

Mr. Harrison Obayi

The meeting commenced at 10:25 a.m. with an opening prayer led by **Mr. Kenneth Onyemachi**.

Review of Previous Minutes

**Amendments:** None

**Mr. Lanre Adebayo** moved for the previous minute adoption and seconded by **Mr. Desmond Ikwuezuma**.

### MATTERS ARISING

#### 1. Airtel:

Mr Kenneth reported that no progress so far. Ho & Bro have made no headway yet; the issue is likely related to the card reader. They are currently still working on it.

For the **PUK issue** a request was made to check if the SIM is still at the Airtel store so it can be retrieved and re-personalized. Fortunately, pressure from Airtel has reduced.

**2. Chip Supply:** There is uncertainty regarding when Keydom will supply the required chips. From the 3M, 2 million will be shared with Ho & Bro.

**3. Keydom:** Keydom requires clarification from Airtel regarding the re-formatting of distribution documents, but no response has been received from them yet.

### **Java Project**

Mr. Kenneth reported that Ho & Bro have completed the data preparation. Though, an issue was detected but it is currently being checked.

**Palmpay:** Mr. Kenneth reported he is unsure the reason the palmpay contactless card isn't functioning. According to him, a comparative analysis was conducted between the Opay card and the Palmpay card. A test will be scheduled after management meeting. If this test is successful, it indicates the issue stems from the data.

**Polaris Bank :** 100k LPO (Local Purchase Order) supply is done.

**Glo :** The output file has been received. Glo maintenance is currently underway.

**Access Bank:** Team is still actively following up.

**CRM:** Ms. Princess reported she has reached out to the CRM software developer but is yet to get a response from them.

## **DEPARTMENTAL REPORTS**

### **MAINTENANCE REPORT**

**TITLE: YMJ Machine Epoxy Motor Not Resetting**

#### **ACTIONS TAKEN:**

- Carried out troubleshooting to identify the root cause of the fault.
- Discovered that the epoxy motor drive belt was worn out and degraded.
- Replaced the faulty belt.
- Conducted a test run of the machine.

**OBSERVATION:**

The machine reset successfully and is operating optimally.

**TITLE: OC200 Unit 3 Register Fault****ACTIONS TAKEN:**

- Carried out troubleshooting to determine the root cause of the fault.
- Mechanically adjusted the registration arms.
- Reset and fine-tuned the relevant machine parameters.
- Conducted a test run of the machine.

**OBSERVATION:**

The registration issue was resolved, and the unit is functioning correctly.

**TITLE: SM74 Unit 1 & Unit 2 – Abnormal Printing and Paper Squeezing****ACTIONS TAKEN:**

- Carried out troubleshooting to identify the root cause of the issue.
- Mechanically adjusted and reset all Unit 1 and Unit 2 grippers to ensure proper paper gripping.
- Conducted a test run of the machine.

**OBSERVATION:**

The printing quality improved significantly, with no further occurrences of paper squeezing, double printing, or print misalignment.

**TITLE: OC200 Unit 4 UV Dryer Constantly Tripping****ACTIONS TAKEN:**

- Carried out troubleshooting to identify the cause of the repeated tripping.
- Mechanically adjusted the shooter assembly.
- Reset the UV dryer load voltage and current settings.
- Conducted a test run of the machine.

**OBSERVATION:**

The UV dryer is now operating normally without further tripping.

#### **TITLE: SM52 UV Dryers Installation**

#### **ACTIONS TAKEN:**

- Completed the electrical connections for the two UV dryers.
- Discovered that one of the shooter solenoid valves was faulty.
- Improvised a temporary replacement to restore functionality.
- Conducted a test run of the machine.

#### **OBSERVATION:**

Both UV dryers are operating optimally as expected.

#### **UPDATE:**

Two quotations has been gotten for the New 150KW Inverter Installation. Please let's look into them and approve for the installation to kick start.

### **BUSINESS DEVELOPMENT & SALES REPORT**

#### **1. Client Engagement Activities**

| <b>S/N</b> | <b>Client Name</b>  | <b>Highlight</b>                                  | <b>Comments</b>                                                                                                                                   | <b>Next Steps</b>                                         |

| 1 | Onboarding of New QC Manager  | Successfully completed last week.                                                                         |
| 2 | Onboarding of Vault Custodian | Successfully completed last week.                                                                         |
| 3 | Accountant Recruitment        | Virtual interview was conducted last week. Physical interview has been scheduled for Wednesday this week. |

**Vacant Positions**

The following positions remain vacant:

1. Accountant
2. Production Manager
3. Machine Operator (SM74)
4. Machine Operator (Perso)
5. Managing Director's Driver
6. General Manager

## **Challenges**

1. Delays in filling key operational and management positions continue to place additional responsibilities on existing staff.
2. Recruitment for specialized technical positions, particularly Machine Operators, remains challenging due to the limited availability of qualified candidates.
3. Continued maintenance requirements for company facilities and equipment may require additional budgetary provisions to prevent operational disruptions.
4. Increased workload arising from ongoing recruitment, onboarding, and administrative responsibilities.

## **Recommendations**

1. Speed up the recruitment process to fill all vacant positions as soon as possible.
2. Use more recruitment channels to attract qualified candidates, especially for technical positions.
3. Carry out regular maintenance on equipment and facilities to prevent breakdowns.
4. Continue staff welfare activities to keep employees motivated and productive.
5. Train and develop employees to prepare them for higher responsibilities when vacancies arise.

## **Conclusion**

The department successfully carried out its routine administrative responsibilities, including documentation management, staff attendance monitoring, procurement activities, welfare support, and facility inspections. Key achievements during the period included the completion of forklift repairs, installation of the inverter, repair of roof leakages at the press and security post, successful onboarding of the new QC Manager and Vault Custodian, and progress in the recruitment process for the Accountant position. Efforts are ongoing to fill remaining vacant positions and address operational challenges to ensure continued efficiency across the organization.

## PRODUCTION REPORT

### Production Overview

During the previous week, production activities were primarily driven by high-volume jobs from key clients, with selective contributions from smaller accounts. Output was concentrated on instant card issuance and selected customized card batches.

### 1. Total Production by Customer (Weekly Summary)

**Total Cards Produced - 41,581**

#### High-Volume Production

- Opay

**Total output: 41,375 cards**

- Palmpay

**Total Output: 0 cards**

- WEMA Verve

**Total Output: 4 cards**

- Polaris Bank

**Total Output: 202 cards**

- Wesley

**Total Output: 0**

## **2. Operational Insights/Difficulties**

### **a. Production Concentration Risk**

- Downturn in card requests

### **b. Machine Utilization**

- Machines in working condition
- **Mag Encoder Readings**

|                  |           |
|------------------|-----------|
|                  |           |
| <b>Matica 1</b>  | 798,429   |
| <b>Matica 2</b>  | 1,064,400 |
| <b>MS-5000 1</b> | 1,998,238 |
| <b>MS-5000 2</b> | 220,793   |

### **c. Job Scheduling Efficiency**

- Experiencing reduced workflow

d. Airtel malating. 65,000 copies printed.

## QC REPORT

### 1. Executive Summary

This report presents a comprehensive breakdown of card production and quality control performance at Cardstel Solutions Limited for the tracking cycle ending July 2026 (specifically covering the production shift window from June 29, 2026, to July 4, 2026). During this timeframe, a total volume of 40,004 cards were successfully processed, validated through quality assurance steps, and securely packed for client distribution. Operations were heavily focused on satisfying high-volume instant card requests for Opay, with additional micro-batch implementations handled seamlessly alongside standard operations.

### 2. Consolidated Production Breakdown

The overall throughput for the reporting week was heavily driven by a single dominant client profile, signifying high manufacturing specialization during this period:

| Bank / Client Name | Card Type / Variant | Total Volume Packed | Percentage Share |
|--------------------|---------------------|---------------------|------------------|
| OPAY               | OPAY INSTANT        | 40,000              | 99.99%           |
| WEMA               | WEMA INSTANT        | 4                   | 0.01%            |

## ACCOUNT REPORT

### 1. Executive Summary

During the reporting period routine accounting and financial control activities were executed successfully. Key areas of focus included daily cash position reporting, sales documentation & receivables follow-up. While operational activities progressed, outstanding receivables from selected customers requires attention.

### 2. Bank Position & Cash Management

Daily bank balance reports were prepared and submitted to the Managing Director before 10:00 a.m. on each working day. This ensured timely visibility of the Company's cash position, supported effective cash flow management, facilitated financial planning, and enhanced informed decision-making.

### 3. Sales, Delivery & Invoicing Activities

The following activities were completed during the reporting period:

- Prepared and issued delivery notes for all dispatched orders.
- Followed up on outstanding customer payments.
- Processed, recorded and properly filed all sales and delivery documentation in compliance with the Company's accounting policies and internal control procedures.

#### May 2026

#### 4. Stock Management & Tally Activities

The stock reconciliation exercise was completed successfully, and the reconciliation report has been submitted for management approval. Upon approval, the necessary stock adjustment entries will be posted into Tally.

Additional activities carried out during the week include:

- Continued migration of inventory records from Excel into Tally.
- Ongoing support and guidance provided to store personnel to improve stock recording accuracy and inventory control within the Tally system.
- Strengthened documentation processes aimed at improving inventory accountability and reporting accuracy.

#### 5. Receivables Status

Customer collections remained satisfactory during the reporting period. However, outstanding receivables from **Wema Bank** and **UBA** remain unpaid and require continuous follow-up to facilitate prompt recovery and improve cash inflows.

#### 6. Utility & Statutory Obligations

##### Electricity Expenses

| Month        | Amount (₦)           |
|--------------|----------------------|
| January      | 6,614,716.34         |
| February     | 3,175,946.68         |
| March        | 5,784,357.85         |
| April        | 3,800,911.36         |
| May          | 5,870,614.24         |
| <b>Total</b> | <b>25,246,546.47</b> |

##### Statutory Remittances

- **Pension:** June 2026 (555,416.43)

- **PAYE:** June 2026 (429,294.14)

## **7. Observations & Recommendations**

- Routine accounting operations continue to be carried out effectively despite resource constraints. However, the shortage of staff within the Accounts Department continues to affect productivity timelines and operational efficiency.
- The CRM platform is not yet being fully utilized for delivery operations, as job IDs are still being forwarded to the Accounts Department manually. Full implementation of the CRM system would enable delivery notes to be generated directly from the platform, reducing paperwork, improving efficiency, enhancing document tracking, and strengthening interdepartmental coordination.

## **8. Key Pending Tasks for the Coming Week**

- Continue follow-up on overdue customer payments particularly outstanding personalization invoices.
- Obtain management approval for stock reconciliation adjustments and post approved entries into Tally.
- Continue the migration of inventory records from Excel to Tally.

## **3. Action Items & Follow Ups**

- Airtel
- Access Bank
- Java
- CRM
- Office setup
- NIMC

## **Adjournment**

The meeting ended at 1:20pm. The meeting was adjourned by **Mr. Desmond Ikwuezuma** and seconded by **Mr. Michael Obadan**.
