

MINUTES OF MANAGEMENT MEETING HELD ON JUNE 1, 2026

Attendance

Mr. Henry Ezike
Mr. Harrison Obayi
Mrs. Gloria Morka
Ms. Vivian Iyaha
Mrs. Tina Uti
Mr. Anthony Aigbokhai
Ms. Princess Obaseki
Mr. Desmond Ikwuezuma
Mr. Kenneth Onyemachi
Mr. Emmanuel Udo

Opening

The meeting commenced at **10:06 a.m.** with an opening prayer led by **Ms. Princess Obaseki**.

Matters Arising

1. Lebara Project

Mr. Kenneth Onyemachi reported that the client is yet to send the required log file, the client only provided input file and requested we produce another test sim. He requested approval to create another input file if the log is not receive.

Mrs. Gloria Morka advised that an official email should be sent to the client, informing them that activities on our end are progressing as planned while awaiting the required log.

2. Abidjan

Mr. Anthony Aigbokhai requested an update on feedback from clients. **Mrs Gloria** reported that there's been communication with the clients.

Ms. Princess Obaseki suggested that additional features be included in the company profile to strengthen the presentation. **Mrs. Gloria Morka** noted that the photographs available do not accurately represent the actual products and therefore may not be necessary for inclusion.

3. INEC Prequalification

Mr. Anthony Aigbokhai reported that the audited accounts would be ready before the close of business.

The following documents were identified as outstanding:

- Proof of Technical Expertise
- Evidence of Similar Jobs Executed
- ISO Compliance Certificate

4. Polaris Bank

Mrs. Gloria Morka requested an update on the embossed retrieved cards and way forward with personalizing the cards. **Mr. Kenneth Onyemachi** reported that the bank did not send the required data as agreed, instead, the bank sent customers name in an excel format which our perso machine cannot personalize.

5. Access Bank SLA

Mr. Kenneth Onyemachi inquired whether the Service Level Agreement (SLA) had been finalized with the client and sought clarification regarding the POC printers. **Mrs. Gloria Morka** stated that appropriate follow-up would be made. **Ms. Princess Obaseki** further recommended that upgrades be carried out on the fingerprint detection systems.

6. HSM

Mr. Anthony Aigbokhai requested an update on the HSM project. **Mr. Kenneth Onyemachi** reported that we currently looking for client to provide us with the data preparation software required for the simcard production. He reported that several emails has been sent awiting response.

7. Customer Relationship Management Software(CRMS)

Ms. Princess Obaseki asked whether login credentials had been distributed to all CRM users. **Mr. Kenneth Onyemachi** confirmed that login details had been successfully distributed to all users.

8. Forklift Repairs and LIRS

Mr. Anthony Aigbokhai reported that the technician assigned to repair the forklift was expected to arrive that day. He also informed the meeting that a response from LIRS was still being awaited.

9. Airtel

Mr. Kenneth Onyemachi reported that Airtel PUK number unblock functionality is currently not working and have reached out to Airtel to provide us with video coverage of the issue and any log file that could help discover what the issue is.

PRODUCTION REPORT

1. Production Overview

During the previous week, production activities were primarily driven by high-volume jobs from key clients, with selective contributions from smaller accounts. Output was concentrated on instant card issuance and selected customized card batches.

2. Total Production by Customer (Weekly Summary)

Total Cards Produced - 5,875

High-Volume Production

Opay
Total output: 0 cards

Palmpay
Total Output: 0 cards

WEMA Verve
Total Output: 568 cards

Polaris Bank
Total Output: 5,307 cards

UBA
Total Output: 0

Wesley
Total Output: 0

3. Operational Insights/Difficulties

a. Production Concentration Risk

- Downturn in card requests

b. Machine Utilization

- Machines in working condition
- **Mag Encoder Readings**

Matica 1	776,355

Funds were also secured for the replacement of the two front sheds, with preparations ongoing for the commencement of the work. Overall, office operations remained smooth throughout the week.

INFORMATION TECHNOLOGY

ACTIVITIES		
S/N	DESCRIPTIONS	REMARKS
1.	AGIP BANK JOB	The Agip bank job is related to tag 9F46 value(ICC public key certificate) which is a data issue. Using the CA Public Key to recover tag '90' from the data, we got a plaintext IPK

		certificate in the correct format. But, when using the recovered leftmost digit of the IPK plus the value of tag '92' to recover tag 9F46, the resulting plaintext ICC PK certificate does not start with '6A', indicating that the value of tag 9F46 in the data is incorrect. This issue has been communicated to Interswitch/Gamswitch for them to fixed the issue with the value of tag 9F46
2.	FIRST BANK EXPRESSION	We resolved with First bank to setup a temporal VPN server for us to be able to access the API. First Bank has provided us with the temporal VPN server and Ukeme have successfully integrated with the API.
3.	AFRIGO	Card Body Certification: I followed up on Madam Faith and she maintained that we will get the certification. She said we can also reach out to Kelvin of Wisecard who is directly in charge of the Afrigo Card body certification
4.	POLARIS BANK	We are currently having issues resolving Polaris Bank request to personalized Customer name on the already embossed card we retrieved from them. Polaris bank is claiming that we only told them to send just the customer name that we can find a way to write it on card and delivered to them but this was not the case as we clearly mentioned in the meeting we held with them that the only way we can write customer name on the card is for them to reprocess the data again and assign customer name to each PAN
5.	HSM	We have started making enquiry for a SIM card data preparation software suite that can be integrated with our current HSM and be able to perform secure generation and storage of master keys, generate PRD files, Output files and the overall SIM data preparation. We have sent an email to Thales to suggest a third party software that could integrate with our HSM and also to Muehlbauer for their MB GSM personalization Software. We are looking foreward to their feedback.
6.	CIM	CIM Wisecard setup will be concluded today and the training will be arranged with CIM support engineers on when to start but we are proposing Wednesday and Thursday
7.	LEBARA NETWORK	Lebara reported that our SIM is still showing Airtel/Lebara as the network name we have checked our end and verified that we configure exactly what Lebara provided us. We are certain that we configured SPN to show only Lebara NG, however we have asked Lebara to provide us with the SIM log file to enable us assist with a solution but they are yet to provide.
8.	KEYDOM	On Airtel Java project, Keydom confirm the 228k SIM card memory space will not be enough for the project. They reported that a minimum of 340k is required for the project.

		Jacob also confirmed we can use the last Keydom chip module we received to perso Lebara SIM
9.	VITEL	Vitel is yet to provide us with the outcome of our SIM test as they are still conducting test on the SIM and will provide feedback as soon as completed.
10.	UBA SIERRA LEONE/GTB LIBERIA VISIT	Anthony is proposing to travel on Monday 8 th June 2029 to Sierra Leone and on the 10 th he will travel to Liberia
11.	PRINTER REPAIR WITH FENCO	Fenco is requesting we pay him for the HID printer repairs he did for us during Polaris Bank Card printing. A memo has been raised with the attached invoice and send to Account for approval and payment.
12.	AIRTEL	Airtel reported the inability for them to drop job on our SFTP as they cannot reach the server as it's times out after several trial. But we confirmed that our SFTP is up and running. Richard requested we rest their Password which we have done and new password has been shared to Augustine, now waiting for feedback. On the PUK issue, we have gotten a video coverage of the issue reported by Airtel and have forwarded same to Ho&Bros and they promise to review the issue and get back to us this week.
13.	DATACENTER BACKUP	All Servers were completely backup and offsite tape is schedule for Friday 5 th June.
14.	JOB UPLOAD	OPAY INSTANT - 0 UBA – 0 WEMA VERVE – 226 POLARIS BANK – 0 PALMPAY – 0

MAINTENANCE REPORT

TITLE: Repair of Burnt 11KW Air Compressor Electric Motor

ACTIONS TAKEN:

- Disassembled all compressor accessories to gain access to the burnt electric motor.
- Dismantled the damaged electric motor.
- Removed the rotor and installed it into the recoiled electric motor.
- Installed the recoiled electric motor and reassembled all compressor accessories.
- Carried out internal and external cleaning of the compressor.
- Inspected the compressor oil level.
- Powered ON the compressor and conducted a test run.

OBSERVATION:

The compressor was operating optimally, and the recoiled electric motor was functioning perfectly.

TITLE: Servicing of the 37KW Air Compressor**ACTIONS TAKEN:**

- Inspected the 37KW Air Compressor and confirmed that routine servicing was due.
- Drained the used oil and removed the filter.
- Refilled with fresh oil and carried out all necessary servicing procedures.
- Conducted a test run on the compressor.

OBSERVATION:

The compressor is operating perfectly and remains in good working condition.

TITLE: OC200 Follow-up Maintenance for the Commencement of Glo Card Printing Job**OVERVIEW:**

It was reported that proper registration could not be achieved due to waving issues observed across different printing units.

ACTIONS TAKEN:

- Troubleshooted the machine to identify the root cause of the issue.
- Loosened and carefully adjusted the registration modules on Unit 3 and Unit 5.
- Performed additional mechanical adjustments on the machine.
- Adjusted the machine software settings.
- Increased the black colour impression level.
- Conducted a test run of the printing operation.

OBSERVATION:

The registration issue was successfully corrected with no further waving observed, and the colour matching test was passed successfully.

TITLE: SM74 Technotrans Severe Leakage from the Heat Exchanger**ACTIONS TAKEN:**

- Disassembled and cut the gas pipes connected to the heat exchanger.
- Removed the heat exchanger for welding and repair.
- Reinstalled the repaired heat exchanger after completion of repairs.

NEXT ACTION:

- Weld the cut gas pipes back onto the Technotrans system.
- Refill the gas and carry out necessary testing.

CISO REPORT
