

MINUTES OF THE LAST MEETING HELD ON 15TH JUNE, 2026

Mr. Henry Ezike

Mr. Lanre Adebayo

Mr. Kenneth Onyemachi

Mr. Innocent Iyare

Mr. Desmond Ikwuezuma

Ms. Chiamaka Nwankwo

Mrs. Gloria Morka

Mr. Harrison Obayi

Mr. Emmanuel Udo

Ms. Vivian Iyaha

Meeting started at 10:12am. Prayers was led by Mr. Kenneth Onyemachi. The Minutes were adopted by Mrs. Gloria Morka, and seconded by Mr. Emmanuel Udo.

MATTERS ARISING

Lebara

Mr Kenneth reported that chips are scarce. Keydom are sure to supply 2million Airtel chips. He suggested 100k of Airtel chip can be used for Lebara production and replacement done when Lebara chips arrived.

Abidjan

The rep said he will relate with his team with regards to printer purchase. We had a call with GT Bank. For the HM, they have already reached out and said it's being looked at internally.

Polaris

Still waiting for feedback.

Firstbank

Mr. Kenneth reported that testing on Firstbank Expression Platform is ongoing. It was discovered the platform only supports Mastercard and not other cards. We requested they share API document to help us know next steps. Follow up will be done, and there's no timeline.

Opay

The Opay challenge experienced, Mr. Desmond reported that closeness to chip can't be the result. Mrs. Gloria said the opay rep said the issue is from the closeness of the chip.

AGIB

The data issue has been sorted out last week.

CRM Software

Put a call to the CRM Software . MD instructed that all previous jobs should be uploaded on the CRM. Lebara job should be updated on the CRM.

Airtel

3 simcards successfully retrieved, ATR checked, it is confirmed okay. PUK not working. The log is working sim card delivered to an agent going to china on Thursday.

Opay:

Ms Chiamaka said opay waste will be burned this week while Palmpay will sent this week.

Abidjan (Liberia and Sierra Lonne):

Sierra Lonne

Mr. Anthony Okafor reported that visit was made to five banks. This includes: UBA, Access Bank, Rokel

3 printers and 2 ribbons was given to UBA. was given ribbons: 2 printers, 2 ribbons.

Embossed printer malfunctioned; the embossed printer was left at Sierra Lonne due to weight. Same challenge applies to printers in the office.

Mr. Anthony Okafor further said, they inquired on how to implement the printer, if an SDK will be integrated with their system. The response was affirmative. Access bank requested for emboss printer but none was given because of the challenge faced at UBA.

Zenith Sierra lone contact met advised we penetrate the Zenith Nigeria to facilitate business with them in Sierra loene. The major challenge face is partial personalization not end to end.

GTB –

Maintenance on the printers was taken care of.

MD corrected they asked how much is the cost? We found out the bank engages is end to end follow up to be done.

Rokel bank:

Mr. Kanu said their cards are sourced from Nigeria. MD added the rep asked the cost.

Liberia

GTB

5printheads was gone with to repair 40printers but the challenge faced was different. Maintenance on the printers were taken care of.

UBA

Mr. Anthony reported that they met with UBA Team and 3 sample cards was collected. They me low stock and production from us to restock. We agreed we Begin. They were engaged with

Follow will be done on Card printers.

MD added not much visit was made in Liberia due to Proximity. Contacts requested from business department was not sent as requested.

Plans for an office – Liberia (IT)

Polaris –

Test data been awaited.

HSM

Tallys has provided email address of Acct Mgr. Engagement has been done via mail, still awaiting response.

DEPARTMENTAL REPORTS

FACILITY REPORT

1. SUMMARY

Facility and fleet support services operated smoothly throughout the reporting period with minimal disruption to daily operations. Routine inspections and maintenance activities were carried out to ensure the continuous functionality of facility assets and company vehicles. Progress was also recorded on the renovation of the newly acquired facility, while identified maintenance requirements remain under review for implementation.

2. COMPLETED ACTIVITIES

The following activities were successfully completed during the reporting period:

- Repair and replacement of faulty air conditioning piping, restoring efficient operation of the affected unit.
- General washing and cleaning of company vehicles to maintain fleet appearance and operational standards.
- Routine facility inspections conducted to identify maintenance requirements and monitor ongoing projects.

3. ISSUES IDENTIFIED / MAINTENANCE REQUIREMENTS

The following maintenance requirements and improvement works were identified and remain pending:

- Painting of the water tank stand located behind the Boys' Quarters (BQ) to prevent corrosion and improve appearance.

- Installation of a drainage pipe to effectively channel rainwater from the compound into the main gutter system and reduce water accumulation within the premises.
- Extension of the compressor house to provide adequate accommodation and protection for the newly acquired compressor unit.
- Installation of an air conditioning unit at the Security Block to improve working conditions for security personnel.
- Landscaping and planting of flowers along the front pathway to enhance the overall aesthetics of the facility.
- General painting works across designated facility areas requiring maintenance and visual improvement.

4. MAJOR ONGOING PROJECTS

Renovation of Newly Acquired Facility

The renovation project continues to progress with the following activities ongoing:

- Plumbing works are in progress and awaiting completion.
- Tiling works are ongoing in designated sections of the facility.
- Fence construction works have commenced, including bricklaying and excavation of foundations for fence pillars.

5. FLEET / VEHICLE STATUS

Vehicle: Mitsubishi Pickup

Condition: Working

Maintenance Requirement: Nil

Status: Operational

Vehicle: Kia Rio

Condition: Working

Maintenance Requirement: AC hose replacement completed

Status: Operational

Vehicle: Hyundai Elantra

Condition: Working

Maintenance done

Status: Operational

Vehicle: Chevrolet Bus (Grey)

Condition: Working

Maintenance Requirement: Servicing and tie-rod replacement required

Status: Operational

Vehicle: Chevrolet Bus (White)

Condition: Working

Maintenance Requirement: Gearbox performance monitoring

Status: Operational

Vehicle: Chevrolet Aveo

Condition: Working

Maintenance Requirement: Nil

Status: Operational

Overall Fleet Status:

The fleet remains largely operational and available for company activities. However, scheduled servicing and preventive maintenance should be carried out promptly to ensure continued reliability and minimize downtime.

6. CHALLENGES

- Limited resources and competing maintenance priorities continue to affect the speed of executing some facility improvement projects.
- Ongoing construction and renovation activities require continuous monitoring and coordination to prevent delays.

7. RECOMMENDATIONS / REQUESTS

- Approval for the installation of the air conditioning unit at the Security Block.
- Approval for the extension of the compressor house to accommodate the new compressor.
- Approval for facility enhancement works, including landscaping and painting projects.

8. PLANS FOR NEXT REPORTING PERIOD

- Improve illumination across the facility premises through the installation and replacement of lighting fixtures where necessary.
- Remove brick debris and construction waste currently littering parts of the compound.
- Carry out servicing of the company generator to ensure reliable power supply.

- Continue and monitor renovation activities at the newly acquired facility.
- Follow up on pending maintenance requirements and seek necessary approvals for execution.
- Conduct routine facility and fleet inspections to identify emerging maintenance needs and ensure operational efficiency.

PRODUCTION REPORT

1. Production Overview

During the previous week, production activities were primarily driven by high-volume jobs from key clients, with selective contributions from smaller accounts. Output was concentrated on instant card issuance and selected customized card batches.

2. Total Production by Customer (Weekly Summary)

Total Cards Produced - 243,791

High-Volume Production

Opay

Total output: 3,620 cards

AGIB

Total Output: 2500 cards

WEMA Verve

Total Output: 1,029 cards

Polaris Bank

Total Output: 71 cards

Wesley

Total Output: 20

3. Operational Insights/Difficulties

a. Production Concentration Risk

- Downturn in card requests

b. Machine Utilization

- Machines in working condition

Mag Encoder Readings

Matica 1	798,413
Matica 2	1,063,942
MS-5000 1	1,982,668
MS-5000 2	192,678

c. Job Scheduling Efficiency

- Experiencing reduced workflow

ADMIN & HR DEPARTMENT REPORT

Department	Issue / Activity Identified	Action Taken / Resolution
Administration	Management welfare	Welfare arrangements provided for management staff.
	Water supply for staff	Water purchased and distributed to staff as required.
	Official memos	Memos prepared and raised for operational and administrative purposes.
	Official communication	Official emails sent as required.
	Document management	Filing of delivery notes and other official documents completed.
	Purchase of breaker for mailers	Breaker purchased to support mailer operations.

Department	Issue / Activity Identified	Action Taken / Resolution
	Bank transactions	Official banking activities carried out.
	OPay mailers collection	Visited Lagoon to collect OPay mailers for operational use.
	Fuel procurement	Accompanied the MD's driver to purchase fuel for official use.
	Personal Casual Worker timesheet processing	Timesheets compiled and verified for payment processing.
	Personal Casual Worker payment	Payment requests raised and processed for casual workers.
	Staff attendance management	Daily attendance records maintained and updated.
	Recruitment activities	Physical interviews for the Accountant position scheduled for Wednesday, 17 June 2026.
Maintenance / Operations	Diesel monitoring	Routine diesel checks carried out and recorded to ensure adequate fuel levels.

Brief Summary

During the reporting period, key administrative and HR functions were effectively carried out. Management welfare and staff water distribution were provided, while official communications, document filing, and memo preparation were completed as required. Casual worker timesheets were compiled and payments processed. Operational support activities included routine diesel monitoring, collection of OPay mailers, fuel procurement, and official banking transactions. Staff attendance records were consistently maintained throughout the period. In addition, recruitment activities progressed with physical interviews scheduled for shortlisted Accountant candidates on Wednesday, 17 June 2026.

Pending Issues

1. Physical interviews for the Accountant position scheduled for Wednesday, 17 June 2026.
2. Confirmation of payment completion for Personal Casual Workers.
3. Monitoring and replenishment of diesel levels as required.
4. Distribution and utilization of OPay mailers for operational activities.
5. Follow-up on any outstanding administrative memos and correspondence.

IT REPORT

ACTIVITIES		
S/N	DESCRIPTIONS	REMARKS
1.	AGIP BANK JOB	Mr Adama involve Aleruchi Ajuru from Verve international who provided support and the issue with the 9F46 in the data was resolved. Our Perso team confirms that they can perso the job after the recent modification was implemented.
2.	FIRST BANK EXPRESSION	First Bank is currently testing the Expression Platform, they started with the user review last week and discovered that the Expression platform only supports Mastercard. First bank have now requested we advise them on the requirements needed from their end to enable the inclusion of additional card scheme such as Naira Visa card and Afrigo. Although, Ukeme responded that we will need the updated API documentation highlighting all the supported card types and IDs for reference but I will further discuss with him to be sure that there will be no cost implication.
3.	AFRIGO	Card Body Certification: I followed up on Madam Faith and she maintained that we will get the certification. She said we can also reach out to Kelvin of Wisecard who is directly in charge of the Afrigo Card body certification
4.	POLARIS BANK	EMBOSS CARD We held a meeting with Polaris Bank and agreed

		that they will do a new data preparation and include the customer names to the existing PAN number and send to us in batches to enable us complete the personalization and the bank have complied. KEY CEREMONY FOR VERVE The issue with the bank Key exchange for Verve scheme has been resolved. We have now requested for sample verve data to proceed test card perso
5.	UBA LIBERIA/SIERRA LEONE CARD PRODUCTION	ECP required we provide some information to enable them get approval from Visa and Mastercard in other to advance to sample card production. The same information has been communicated to Business unit to reach out to customer to supply us with the needed information.
6.	HSM/SIM CARD DATA PERPARTION SOFTWARE	We have gotten some feedback from the contacts we made regarding the HSM and SIM card data preparation software. Below are the feedback Thales - Thales provided us with the email address of our account manager who will be responsible to provide us with the exact service we require. I have sent an email to our account manager and expecting his feedback. Cloud - Cloud provided us with options i. For Software that automatically takes Input file and generate Output file and does not require data management - The price will cost \$10,000. ii. For a Web-base management Software that

		automatically takes Input file and generate Output file and perform data management - The price ranges from \$20,000 to \$100,000. iii. For One-Stop SIM personalization services featuring functions such as Role management, Data management, MNO customer management, data template management, script management, device management, Order management and Key integration - The price ranges from \$60,000 to \$150,000 USD. iv. Personalization Script development - Price is \$3,000 per profile. Ethan - My further discussion with Ethan on the subject matter, Ethan confirm that they do not use HSM to do data preparation in China. He said that what we need is a simple software tool that takes up an input file and generate an output file for us. We agreed that he should furnish us with the cost and all the requirements necessary. He promise to send the needed quote this week.
7.	CIM	We will schedule the CIM training with the CIM team by next week. We are currently working to integrate the machine with Wisecard solution
8.	LEBARA NETWORK	SPN NETWORK DISPLAY NAME The issue with the network display name SPN has been resolved. SIM CARD TEST REPORT Lebara have also provided us with the test result of our SIM as summarize below: Overall user service test are successful including Calls, SMS, and key USSD codes. However, there is a few issues observed such as;

		i. Intermittent network failure on SIM card ii. Wrong bundle display and incorrect bundle validity time. iii. Calls and SMS failing for MTN and International numbers. These issues seem to me Airtel/Lebara internal problem, being the reason while Lebara is not putting it on us, instead have requested we advance to production stage. INPUT FILE: We received the first batch of 100,000 production Input file from Lebara and the same have been sent to Keydom for data preparation.
9.	KEYDOM	The following are the current project we have with Keydom AIRTEL -We are expecting Keydom to provide us with the 2 million Output file for Airtel Native SIM. -We also expect Keydom to provide us with Airtel Java OS/Script and output file for the 10 test input file for the Java SIM we shared with them. -We are also expecting the Output file for the 100k Lebara Java SIM. Keydom have told us that the time line of these project is determinate on the response from the Chip manufacturer and we are hopeful to get all the details this week.
10.	VITEL	Vitel is yet to complete testing of our SIM. They promised to provide us with the test result as soon as completed.
11.	AIRTEL	PUK ISSUE We retrieve 3 SIM cards returned by customers having the PUK issues. We troubleshoots the SIM cards together with the Ho&Bro tech person and confirm the PUK issue as reported by Airtel. Ho&Bro tech person requested we send the SIM cards to China through their colleague who in Nigeria for further troubleshooting and we have delivered the SIM cards to him. We are hopeful to hear from the team on their findings this week.
12.	GLO	We have sent the Glo 1,125,000 prepaid and maintenance Input file to Trasna for data preparation and we are expecting input file by next week

13.	TRASNA	Trasna reached out to us that they might not send us the Glo Output for the 1,125,000 Prepaid Maintenance Input file we send to them for data preparation unless we got a written approval from Glo. We got a mail from Glo and send to Trasna, waiting for their feedback. Trasna also send us the data summary for the 1,125,000 Glo Prepaid and Maintenance SIM, Trasna expect us to confirm that the data is correct. I have checked and confirm to them.
14.	DATACENTER BACKUP	All Servers were completely backup and offsite tape was maintained.
15.	JOB UPLOAD	OPAY INSTANT - 0 AGIP – 2,500 WEMA VERVE – 1,600 POLARIS BANK – 41 Emboss PALMPAY – 0

3. Other Activities and Updates

- Weekly stock report was shared with clients.
- Follow up with IT on update for the digital pay expo marketing materials.
- Preventive maintenance guide was shared for instant issuance printer.
- Follow up mail was done to prospective client from ID4AFRICA and Kigali.
- Palmpay has requested to halt all productions until further notice.
- Reminder mail was done for the Mastercard plastic for lotus bank.
- GTB kiosk SLA has been review and shared with the bank.
- The faulty 4 pieces of javelin instant issuance card printer for GTB in branch has been serviced and delivered to the bank.
- Opay stock certificate was shared.

4. Marketing calls/visit

- Follow up calls to GTB in branch to get update on the invoice shared for the faulty card printers and also to get update on SLA review.
- Visit to Optimus bank to follow up on their request for embossed card printers.

5. Action Plan for Next Week

- More Marketing calls/visit to be done
- Follow up internally on the UBA Sierra Leone cards sent to kingdom.
- Follow up with IT on their travel to visit to GTB Liberia and UBA Sierra Leone on the concern raised by them on their faulty card printer and the printer request and consumables for UBA Sierra Leone.
- Follow up internally for the inquiry about scratch-off security sticker production.
- Meeting schedule confirmation for Wednesday with Banja Chisupa.
- Meeting schedule confirmation for Tuesday with Paulo Pedro.
- Follow up with IT/ PERSO regarding the pending 2,000 AGIB cards.
- Follow up with WEMA bank for all the outstanding payments.
- Follow up with GTB regarding SLA sign-off.
- Follow up with Polaris bank on SLA sign-off.
- Send /follow up with Proposals.
- Off-site support to customers on instant issuance printers.
- Attend to client's needs.
- Follow up with Optimus bank on the quote shared for the embossed card printer as requested.
- Follow up with Access bank on update for the POC request for Pointman printer and invoice shared.
- Follow up with CASHA bank on update for data to commence card production.

MAINTENANCE REPORT

TITLE: New Punching Machine Belt Servo Motor Not Initializing – Alarm AL.17.4 (PMC)

ACTIONS TAKEN:

- Troubleshooted the system to identify the root cause of the fault.
- Disconnected all plugs connected to the Servo Drive and powered OFF the machine for more than 10 minutes.
- Reconnected all cables to the Servo Drive and powered ON the machine.
- Reset the Servo Drive multiple times.
- Connected the Servo Motor to another Servo Drive for testing and observation.
- Connected the Servo Drive to another Servo Motor for testing and observation.
- Disassembled and inspected the internal components of the Servo Drive for troubleshooting and testing.

OBSERVATIONS:

- The Servo Drive alarm could not be cleared despite carrying out the above corrective actions and additional troubleshooting procedures.
- The Servo Motor was confirmed to be in good working condition.

CONCLUSION:

The persistent AL.17.4 alarm after extensive troubleshooting indicates a fault with the amplifier board of the Servo Drive Controller.

STEP TAKEN:

- Contacted the machine manufacturer regarding the replacement of the faulty Servo Drive.

NEXT:

- Awaiting delivery of the new Servo Drive.

TITLE: Water Leakage from OC200 Unit 2 UV Cooling Plate**ACTIONS TAKEN:**

- Troubleshoot the system to determine the source of the leakage.
- Replaced the faulty connectors.

OBSERVATIONS:

- No further leakage was observed after the replacement.
- The cooling system is operating normally.

TITLE: OC200 Ink Dots – Doctor Blade Replacement**ACTIONS TAKEN:**

- Obtained one pack of Doctor Blades, although the size differed from the machine specification.
- Cut and trimmed the Doctor Blades to the required machine dimensions.
- Installed the Doctor Blades in all units.
- Conducted a test run of the machine.

OBSERVATIONS:

- The Doctor Blades performed effectively and met the required operational standards.
- Machine performance was satisfactory during the test run.

TITLE: Steeved Embosser 3 – Infiller Top Bearings of Matica 2**ACTIONS TAKEN:**

- Properly aligned the linear ball bearings.
- Replaced one defective bearing.

OBSERVATIONS:

- The Infiller Top is now rotating normally as required.

TITLE: SM74 Unit 2 Doctor Roller Cylinder Failure

ACTIONS TAKEN:

- Replaced the faulty pneumatic cylinder with a new one.
- After installation, the new cylinder was observed to be malfunctioning and not operating as required.
- Carried out a temporary replacement of the Unit 2 Doctor Roller pneumatic cylinder to restore machine operation.

OBSERVATIONS:

- The Doctor Roller is currently functioning properly with the temporary replacement.
- Machine operation has been restored and is running satisfactorily.

NEXT STEPS:

- Procure a new and fully functional pneumatic cylinder for permanent replacement.
- Install and test the new cylinder upon arrival to ensure reliable operation.

Adjournment

The meeting ended at 2:15pm. Mr. Emmanuel moved for adjournment seconded by Mr. Desmond.
