

MINUTES OF THE LAST MEETINGS HELD ON 4TH OF MAY, 2026

Attendance:

Mr. Henry Ezike
Ms. Princess Obaseki
Mrs. Gloria Morka
Mrs. Tina Uti
Mr. Desmond Ikwueuma
Ms. Vivian Iyaha
Mr. Kenneth Onyemachi
Mr. Anthony Aigbokhai
Mr. Obayi Chinweike Harrison
Mr. Lanre Adebayo

The meeting started at 10:46 AM with a prayer led by **Gloria Morka**.

Minutes of the last minute were read and amendment made.

Amendments: During the meeting, Princess clarified that she never mentioned a specific price of ₦3.50.

After the review, the motion of adoption was moved by **Mr. Desmond** and seconded by **Mr. Onyemachi Kenneth**.

MATTERS ARISING

1. NANO MACHINE

MD asked about the condition of the three machines. **Mr. Kenneth** explained that one of the machines produces glossy prints, another prints with some faults or anomalies, while the third one keeps jamming during use. **MD** responded that the grammage of the material being used is not up to the required standard, which is likely causing the printing issues. He also asked about the nano machine. **Mr. Kenneth** said he has not been able to reach the engineer responsible for it, but once contact is made, the engineer will come to work on it. **MD** then concluded that the nano machine should be set aside for now and the faulty parts should be replaced.

2. LEBARA

Mrs. Gloria mentioned that the SIM cards need to be updated on WhatsApp and packaging. She added that the company has requested a price review, reducing the cost from ₦48 to ₦45. For the packaging, it was agreed that the sample of the package be produced and sent for final approval. The **MD** advised that **Mrs. Gloria** should do an email to Lebara that henceforth the samples must come with cost and they and they should make the final decision on simcard testing and packaging, as prices are going up in the international market.

3. New Compressors

Mr. Harrison was directed to move the compressors through the property fence at child avenue and build it at the back, so the compressor will be at the back of the office where others are. This was agreed.

4. VITEL

Mrs. Gloria reported that there has been no update from the vitel team. **MD** advised on a constant fellowship on this regards.

5. ID4AFRICA

Ms. Princess explained to the house the extent of preparation for the exhibition. It was agreed that items to be taken to the event should be show at the exhibition. **Ms. Princess** was to co-ordinate this and report back.

6. CIM Machines/Printers

Printer has been set and tested manually. That email will be written for training to commence. MD advised that the perso team should look out via youtube on the operation of the machine. Since Ms. Taiwo Adenira is currently under the weather. This was agreed to be taken care of by Mr. Kenneth Onyemachi.

7. Installation of Four Machines

Mr. Obayi said that two protect Bank Personalization machine has been installed and working well. Also, one number MS500 Bank Personalization machine has been installed awaiting software integration by wisecard. He further reported that the milling Embedding machine and module pre-personalization machine has been installed. The milling and embedding is working but we await the modules to test the pre-personalisation machine. The engineer is still around.

8. Access Bank

Mrs. Gloria said a proof of concept (POC) was carried out on Thursday last week. Testing and transactions were done. During the testing, printing was affected but the issue was later resolved. However, when the printer was connected to the software, the output was not very clear. She added that the printer was left at Access Bank and, if everything had gone smoothly, it would have been deployed to a branch for two to three days of testing.

Kenneth said he has been working with Taiwo to resolve the issue. He tested it using Microsoft and it worked well. He also mentioned that Taiwo suggested the printer should be reinstalled.

Gloria added that if the meeting ends early, they would revisit the bank, but if not, they would go on Tuesday, May 5, 2026. She also noted that Adedayo was absent at the last meeting, while Eniola was present. She explained that the purpose was to inform the bank that cards were available, but the bank currently does not need Mastercard cards. They requested that Mastercard be rebranded to Verve cards so they can proceed with purchases. She added that they do not need blank cards due to the cost of printing. The bank also mentioned they are currently using Zebra printers and do not intend to change them for now. She further stated that UBA sent a request for gold cards.

Arkpay requested 1,000 cards for personalization. **Mr. Kenneth** requested data on the chip

and said he is still checking whether R11 and R12 will work.

ACCOUNT REPORT

Mr. Anthony Aigbokhai responded as follows:

1. The cash flow is not favorable, suggested that Business Department should put more effort to make sure there is enough funds to cushion daily operations of the company.
2. The receivables for the month of April ended April 30th are a far cry from what was obtainable in the past 3months of Jan-March 2026. However, payable is N525,000.00
3. The LIRS insisted we defend our objection as regards last audit for 2017-2022. The date is May 12th, 2026. However, documents are being prepared for defence.
4. The stock and asset verification exercise is still ongoing. The **MD** noted that Mr. Aigbokhai Anthony has not yet submitted a report on the items below. He is expected to conclude the exercise and present his report at the next meeting.
 - The property at Alakpako.
 - The taxes and filing of same.
 - Town planning/PHCN matters.
 - Abuja/Lagos office spaces.
 - INEC, NCC, NIMC update.

The meeting ended at 2:28pm. **Mr. Desmond** moved for adjournment, and it was seconded by **Mr. Harrison**.
